#### Form No. A

# Certificate from ECBC Expert / Design Professional to be enclosed with the application for Building Permit for ECBC Compliant Building Certificate

Conservation	CBC Expert / Design Professional having registration no. /under the Energy Act 2001 and am/are authorized to scrutinize and verify the design of ECBC lding. I certify that –
(a)	I have scrutinized the construction documents duly signed by the owner / Architect showing all the pertinent data and features of the building, equipment and systems in sufficient details covering Building Envelop, HVAC, Service hot water, Lighting and Electrical power in accordance with Punjab ECBC in respect of building proposed to be constructed on plot on block no Scheme in the city of in the State of; (Annexure 1)
(b)	I have scrutinized the compliance forms together with the checklists (Annexure-2) to ensure compliance with the Punjab ECBC.
(c)	ECBC Compliance Report incorporating the proposed energy conservation measures have been duly checked and verified by the undersigned. The Energy Performance Index Ratio of the building design as per construction documents at the design stage are equal to or less than one and are therefore in compliance with the Punjab ECBC (Annexure 3).
(e)	It is certified that all the required scrutiny and verification of the documents submitted have been carried out diligently and truthfully and all reasonable professional skill, care and diligence have been taken in scrutinizing and verifying the drawings of the buildings and compliance forms together with checklists covering the various components of the Punjab ECBC. This complies with the requirements of Punjab ECBC and supporting data is attached. (Annexure 5) The contents of all the documents submitted along with the application are a true
	representation of the facts and nothing has been concealed.
	There is no objection for issue of Building Permit in respect of the aforesaid ed Building in so far as requirements of Punjab ECBC are concerned.
Date	
Signature <b>Building Own</b>	Signature  Name of the ECBC Expert / Design Professional  Registration no. with SEAL
Enclosures:	uilding Details Proforma
	unjab ECBC Compliance Forms (Summary + Checklists)

Annexure-3 – ECBC Compliance Report at design stage (including Simulation report, if applicable)

Annexure-4 - Certificate of BEE Empanelled ECBC Expert/Design Professional

Annexure-5 – Project Data for all applicable systems

## PROJECT DATA REQUIREMENTS FOR PUNJAB ECBC

Following are the list of documents required for the compliance of Punjab ECBC at design stage:

S.No.	Project Requirements	Annexure
	Building Details Proforma (Form-1)	Annexure- 1
	ECBC Compliance Forms (including Summary & Checklist)	Annexure- 2
Ц	(Forms 2-10)	
	ECBC Compliance Report (including Whole Building Energy	Annexure-3
Ц	Simulation report, if applicable)	
	Certificate of BEE Empaneled ECBC Expert/Design Professionals	Annexure-4
	or BEE Certified ECBC Master Trainers	
	of bill certified bebe Master Trainers	
	Project Data Requirements for all 5 Building Applicable Systems	Annexure-5
	(Building Envelope, HVAC, Lighting, Service Hot Water and	
	Electrical Systems) (Form 11-14)	

## Form 1- Building Details Proforma

S. No.	Description	Project Details
1	Name of Building	
2	Location with Address	
3	Building Type (Hotel/Mall/Hospital/Building Complex/Retail/IT/Office)	
4	Project Type (New Building/Addition/Alteration/ Change of Use)	
5	Building Area	Plot Area (sq. ft.) -
	bulluling Area	Built-up Area (sq. ft.) -
6	No. of Floors in Building	
		Name of Owner -
7	Owner's Details	Owner's Address -
,		Owner's Contact Number -
		Owner's Email Id -
		Name of Architect -
8	Architect Details	Architect Address -
		Architect Contact Number -
		Architect Email Id -
	Project Comes Under (Corporation/Council/Committee/	Name -
9	Authority/Nagar Panchayat) with Address	Address -
10	Any other Information related to the building	
11	Name & Contact Number of the Nodal Officer In-charge	

Signature of the Applicant

## **PROJECT DATA REQUIREMENT SHEET**

Following are the documents required for meeting the requirements of Project ECBC Compliance: -

### I - BUILDING ENVELOPE

Section 4 Compliance Forms with:-

1.	DRAWINGS
	Floor wise area statement
	Site Plan/Master Plan
	Floor Plans
	All Side Elevations
	Door-Window Schedule
	Section Drawings
	Façade Wall and Roof Sections with material description and K-Value Marking
2.	CALCULATIONS
	Window to Wall Ratio Calculation and Skylight to Roof Ration Calculation.
	U-Value Calculation for Wall and Roof.
	M Factor Calculation for Overhangs/Fins (if used).
	Tradeoff method calculation (if opted).
3.	DATA SHEETS
	Insulation proposed to be used in Wall and Roof with its K-Value
	Proposed Window/Skylight Glass (Mentioning U Value, SHGC, VLT)
	Proposed Roof Tile/Paint (Mentioning SRI Value).

### II - HVAC

Section 5 Compliance Forms with:-

4.	DRAWINGS
	HVAC Layout showing air-conditioned area and non-air-conditioned area.
	Summary on provision done as per NBC 2005 Part 8, Section 1 for natural ventilation spaces.
	Proposed HVAC system details (Mechanical Schedules) with mentioning star rating and COP.
5.	CALCULATIONS
	Alia Cida Contanta and Hadrania Contant Relativistic Research
	Air Side System and Hydronic System Balancing Report.
6.	DATA SHEETS
	HVAC systems mentioning star rating or COP with IS standard.
	HVAC systems mentioning star rating or COP with IS standard.  Proposed ceiling fans star rating
	Proposed ceiling fans star rating
	Proposed ceiling fans star rating  Air circulator proposed in Air Conditioned room.
	Proposed ceiling fans star rating  Air circulator proposed in Air Conditioned room.  Door Closer
	Proposed ceiling fans star rating  Air circulator proposed in Air Conditioned room.  Door Closer  Piping Insulation (Mentioning the R value)

### III – SERVICE HOT WATER

Section 6 Compliance Forms with:-

7.	DRAWINGS
	Plumbing layouts showing hot water supply (Solar/Electric/Fuel) to the toilets.
8.	CALCULATIONS
	Hot water requirement in building and solar hot water provision (min 20%) calculation.
9.	DATA SHEETS
9.	DATA SHEETS  Solar Water Heater with the information of its efficiency.
	Solar Water Heater with the information of its efficiency.
	Solar Water Heater with the information of its efficiency.  Electric equipment with the information of its efficiency

### IV – LIGHTING & ELECTRICAL SYSTEM

Section 7 Compliance Forms with:-

10.	DRAWINGS
	Lighting drawings, showing the provision of occupancy sensors in the applicable spaces.
	Lighting layout showing the location of lighting fixtures, mentioning the type and wattage of the fixtures.
11.	CALCULATIONS
	Lighting Power Density Calculation for interior spaces and exterior spaces.
12.	DATA SHEETS
	Exterior Lighting fixtures (Street Lights in the compute with its specification (Time based or a photo consed based)
	Exterior Lighting fixtures/Street Lights in the campus with its specification (Time based or a photo sensed based).
	Interior lighting fixture with its type and wattage details.
	Display/Demonstrating/Exit Sign lighting fixture with its wattage details.
	Exterior Ground Lighting Fixtures with the information of its luminous efficacy (lm/W).
	Master control devices for hotel buildings.
	Task lighting fixtures.
Section	8 Compliance Forms with:-
13.	DRAWINGS
	Transformer details with the information of its type, capacity and losses at 50% and 100% loading.
	Motors with the information of its class and efficiency.
	Power Factor or APFC (Automatic Power Factor Controller) with the specification.
	Meter details having the provision to display the kVA, kWh, PF, current, voltage, THD.
	Power cable specifications (Max 1% losses).
